PUFF INSULATED A.B.S. DOORS

*Matchless Beauty
that will last forever . .*

Aashhish - at a glance

We are pleased to introduce ourselves as the pioneers in manufacturing of specialised plastic moulded items and articles. Established in 1986, we initially ventured in the manufacturing of **One-Piece Plastic Milk Cans**. Being a new concept, this product gained recognition and popularity in very short period of time. - Today, we proudly say, that we are the leaders in Plastic Milk Cans in India, with a wide distribution network throughout the country. - We initially started producing small, medium and large scale Water Storage Tanks upto 10,000 ltrs. capacity. This success motivated us to further expand our business activities and soon we launched Planters and PUF insulated Water Storage Tanks. We received overwhelming response from various Industrial Houses, Government Agencies and domestic field throughout India.

Our continuous efforts towards maintaining the product quality, prompt supplies through nation-wide network and cost effectiveness have helped to establish 'Aashhish' as a brand, and have earned

ample recognition. We have received prestigious awards by various NGOs like Chamber of Commerce & Industries and also from State & Central Government. Moreover we had the rare opportunity of receiving awards for our distinctive business activities at the gracious hands of Hon. Sharadraoji Pawar - Minister for Agriculture, Hon. Balramji Kakhad - Former Union Minister, Hon. Nirmala Prabhavalkar - Former Mayor of Mumbai & many others. Our products have the registration & recognition of ISI, RAILWAYS, MES, DGS & D, BEST, BMC, PMC & several other agencies.

Being pioneer is our tradition. With this excellent past record of more than two decades, we are now introducing - *for the first time in India* - One-piece Puf Insulated A.B.S. DOORS in wooden finish. These are manufactured with state of the art machinery and modern techniques. These doors are available in various colours and attractive designs and have many advantages over other conventional doors. Being environment friendly, A.B.S. Doors is the best alternative to wooden, fiber & steel doors. These doors are installed & Certified by M.E.S. Pune, Secunderabad, Indian Railway (Pune & Kharagpur division), Pune Municipal Corporation, C.P.W.D., And many more.

Aashhish is fortunate to have a visionary leadership of Mr. Deepak Shah & Mr. Sanjay Shah, who are technocrat having more than twenty years of experience in the field of plastics. We have a dynamic team of experts and professionals. The production activities are carried out in three plants located at Vadgaon (Maval), Kanhe & Takve. Always looking ahead and aiming greater heights, Aashhish has already set the immediate future goal - *Moulded Furniture*.

We look forward for your continued support in this endeavor.
